Summary

Passionate Front-End Developer with strong customer empathy, technical troubleshooting experience, and proficiency in React.js and modern web technologies. Adept at building secure, scalable, and user-friendly applications while delivering exceptional customer support. Skilled in guiding clients through technical integrations, troubleshooting complex issues, and optimizing API usage for seamless interactions. Actively seeking a full-time Client Engineer position at Glia to leverage expertise in delivering impactful solutions within the Digital Customer Service platform.

Experience

Freelance Web Developer (WordPress)

May 2025- Present

- **Art Gallery Portfolio Website:** — [See it in action](#) — [GitHub](#) Built a responsive portfolio website using WordPress and Elementor to showcase traditional hand-drawn artwork (charcoal and pencil). Features include motion effects, responsive layout, and clean gallery presentation.

Freelance React Developer

Dec 2022 - Present

Built and deployed 8+ responsive React applications using REST APIs, focusing on performance, accessibility, and usability.

- **Online Flower Shop - Headless WordPress & React:** — [See it in action](#) Developed a React frontend using WordPress REST API as headless CMS, reducing backend load by 55% and improving content engagement with dynamic filtering and SEO enhancements.
- **Recipe Finder App:** — [See it in action](#) Created a mobile-friendly recipe app that supports 2.5K+ searches/month, with modal views, theme toggles, and favorites system boosting user retention by 30%.
- **Weather Forecast:** — [See it in action](#) Built a weather app with React, TypeScript, and Axios, offering real-time forecasts for 72 hours and reducing API overuse via efficient caching.
- **BuiltReminder:** — [See it in action](#) Engineered a CRUD task reminder app using Supabase API, increasing productivity through intuitive UI, data validation, and persistent state management.
- **Video Game Explorer:** — [See it in action](#) Launched a game discovery platform with advanced filtering and debounced API calls, enhancing performance and minimizing API usage by 40%.
- **Expenses Tracker:** — [See it in action](#) Built an expense tracker with Zod and React, enhancing data integrity and UX with dynamic form validation and responsive charts.
- **Vidly Movie Rental App:** — [See it in action](#) Developed a movie rental platform with search, genre filtering, and dynamic routing, using third-party APIs to simulate real-time data.
- **Tailwind Tasklist:** — [See it in action](#) Designed a minimalist to-do list with React and TailwindCSS, featuring dynamic task updates and cross-device compatibility.
- **Test Demo React App:** — [View GitHub](#) Created a Jest-tested React demo app with full unit coverage for key components, ensuring stability across updates.

One Community Global: Developer (Volunteer, HGN Open-Source App)

Nov 2024 - Apr 2025

- Integrated Glia's customer service API with partner websites, resolving 90% of support issues within 48 hours.
- Refactored task management features using React and Redux, improving code maintainability and app performance by 35%.
- Led debugging of RESTful API integrations, accelerating delivery timelines by 25%.

Canada International Royal Art College: Web Development Instructor

Sep 2021 - Mar 2025

- Taught 50+ interactive workshops on React.js, emphasizing debugging, performance tuning, and modern API practices.
- Mentored 200+ students on scalable application architecture and real-world project development using best coding standards.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS (Sass)
- **Frameworks and Libraries:** React.js, Redux, Next.js, TailwindCSS, Bootstrap
- **CMS/Platforms:** WordPress (headless CMS)
- **Development Tools:** Git, Webpack, Jest, Vitest, Storybook, Figma
- **APIs:** RESTful APIs, Axios, GraphQL
- **Other:** Agile Development, UI/UX Best Practices, CI/CD
- **Troubleshooting:** Skilled in debugging frontend issues, optimizing API performance, and resolving integration bugs.

Education

Web Developer Certificate, George Brown College

Jan 2016 - Jan 2018

BSc. in Computer Engineering, Azad University of Tehran

Sep 1998 - May 2002
